RULE NO. 20

MOBILE HOMES AND MOBILE HOME PARKS

A. When two (2) or more mobile homes are set up on a lot or in a mobile home park on a more or less permanent basis, service will be supplied under the conditions of the company's line extension Rule #9, and at the applicable residential rate schedule.

1. A meter loop of approved type and acceptable to the company shall be furnished and installed by the owner of the mobile home, or the owner of the mobile home park.

B. If the owner or operator of a mobile home park use space in a mobile home park or a certain portion of the mobile home park for overnight parking or parking for periods of less than ten days, such space or portion of the mobile home park (wash houses, office and other usage) shall be metered through one meter and billed to the owner or operator on the commercial rate schedule.
